WINEMAKER NOTES

Albariño is one of those unique grapes that has been grown since the 12th century in Spain and Portugal. Sometimes the vines are trained to grow up poplar trees or on arbors. This grape has a greenish hue with a slight saline flavor which makes it a good pairing with seafood dishes and salads. Our 2022 Albariño has aromas of donut peach, green apple and gooseberry. The salty mouthfeel gives you a lingering sensation of flint. Extremely refreshing and approachable, this will be a great summer sipping wine on those hot days that are sure to come.

Gordon Taylor, Winemaker

VINEYARDS

Location: JMST Four Feather's Estate, Columbia Valley

WINEMAKING

Harvested: 9/19/2022

Yeast: EnartisFerm ES Floral; *saccharomyces cerevisiae* plus *saccharomyces bayanus* species

Fermentation: Primary 16 days; Malolactic 64 days

2022 Albariño

Columbia Valley

Wine Lore: This is a new wine for Daven Lore. Albariño is originally from the northwest Iberian Peninsula (Portugal and Spain). It has gained a strong following in Washington due to its bright acidity and rich flavor, which results in pairing well with seafood, another Washington specialty. Our growers have become adept at producing this grape to bring out a distinctive flavor that reflects a Washington twist to this old world grape. We hope that you enjoy drinking it as much as we enjoying making it! Cheers!

TECHNICAL DATA

Alcohol: 12.6%

Final pH: 3.29
